# GOSPORT SUSTAINABILITY ADVENTURE!

## With Gilby the Gilkicker Weevil

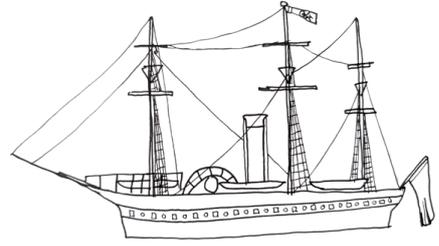

Gilby needs young eco-explorers to help keep Gosport's nature happy, healthy, and full of life. Are you ready?

## Explore Gosport's Wild Places!

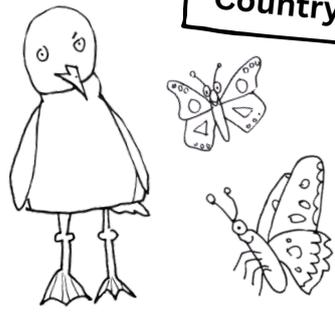

Gosport is full of amazing habitats. Gilby wants you to learn what makes each one special.

**Marinas**

Look at the boats and gently moving water. What sea animals do you think might live below the surface?

**Alver Valley  
Country Park**

A huge green space with meadows, ponds, and woodland. Can you spot birds, insects, or animal footprints?

**Stanley Park**

A peaceful park full of trees and flowers. Which plants can you see that help bees?

**The Wildgrounds**

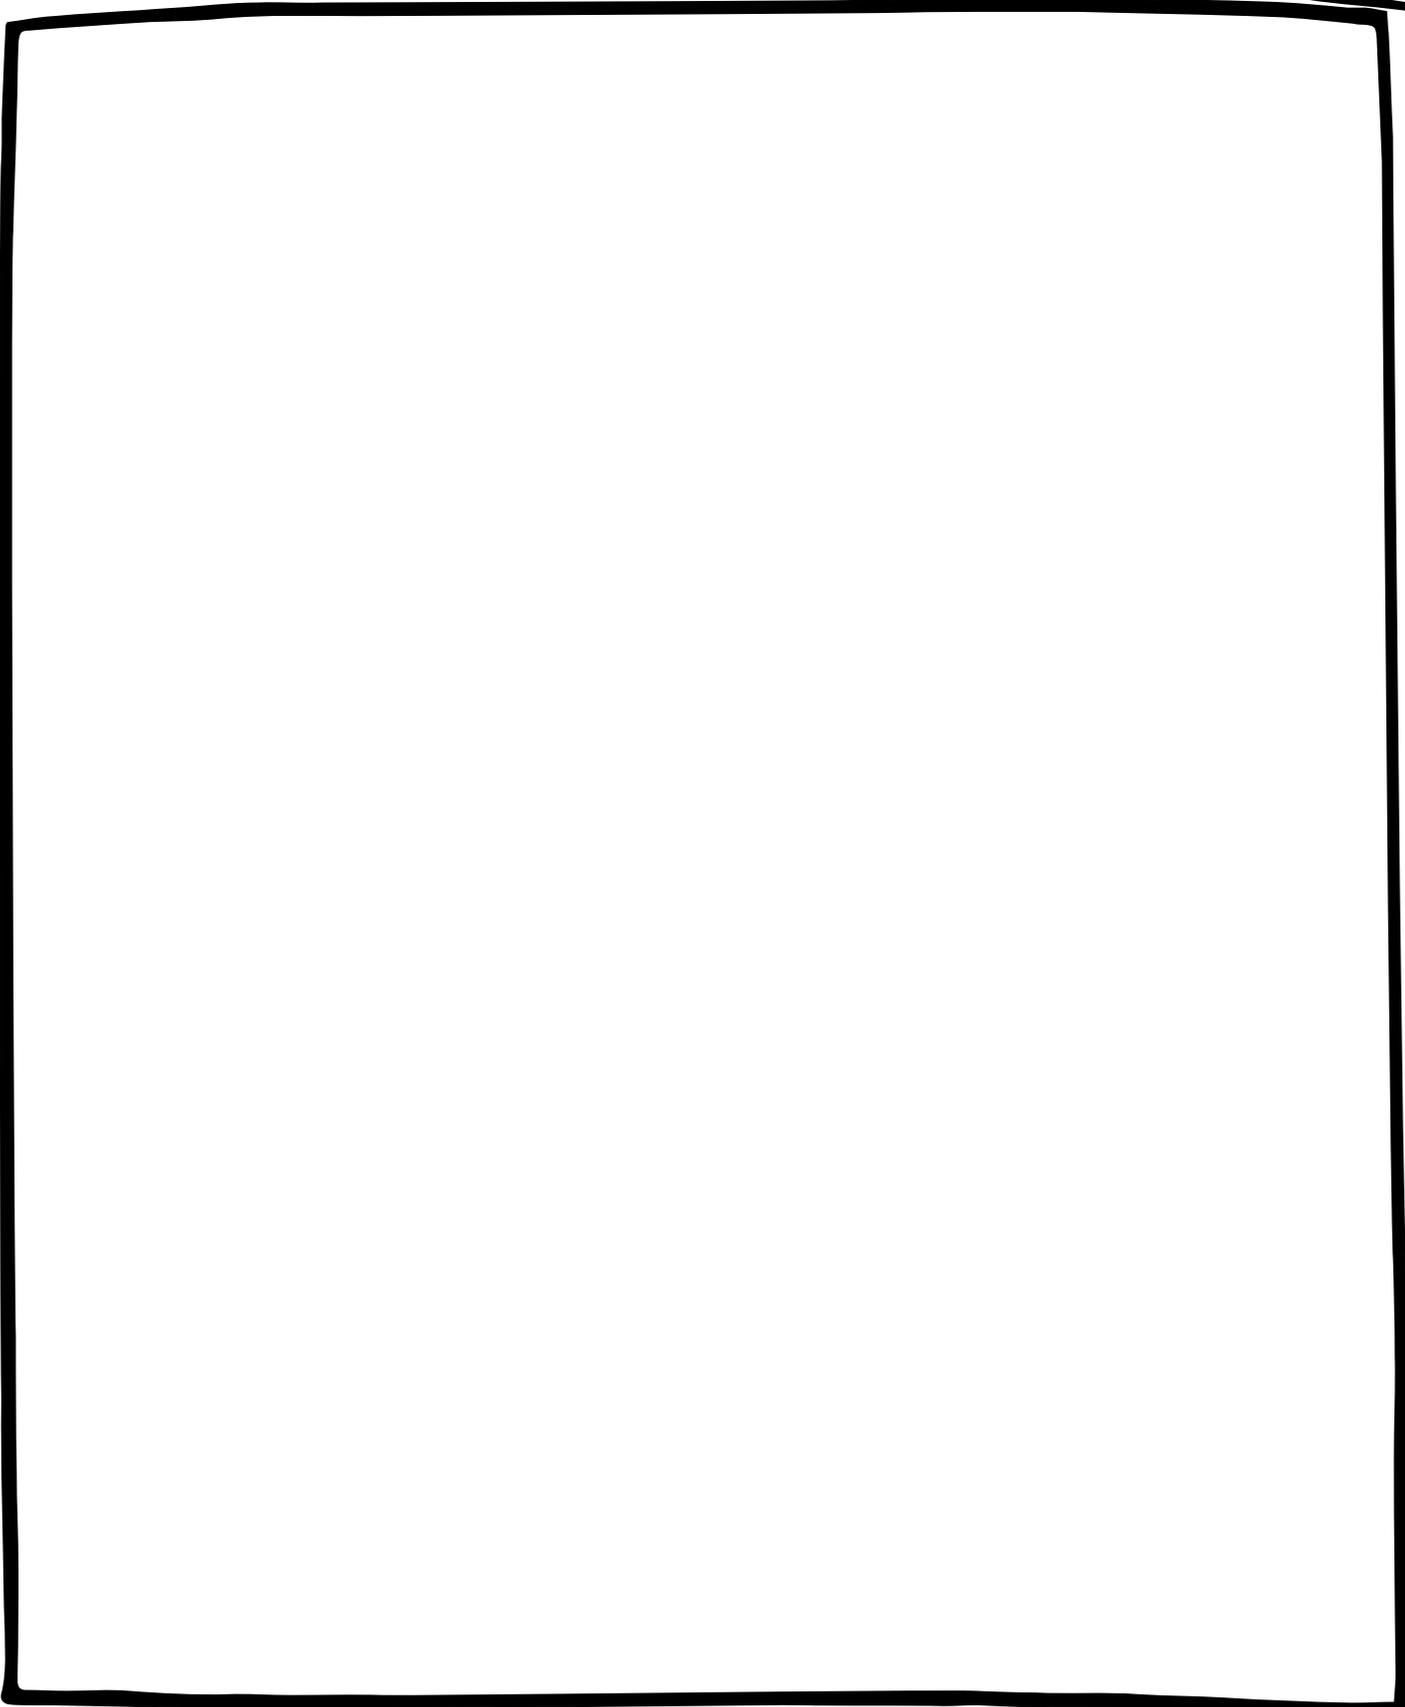

An ancient woodland that has hardly changed for hundreds of years. What might a tiny weevil discover under a fallen log?

**Pick one of these places and on the next page draw Gilby exploring it!**

What does he find? A feather? A leaf? A friendly bug?...

# Gilby Exploring...

.....

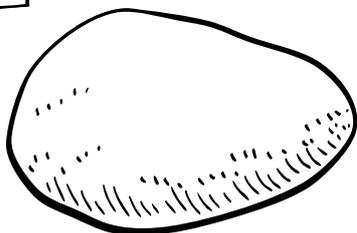

# Gilby's Treasure Trail!

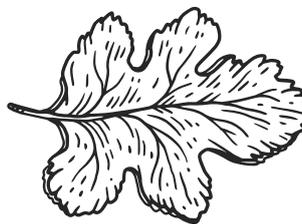

Gilby loves tiny treasures from nature, things that aren't alive and won't harm wildlife if collected.

Can you find:

A smooth pebble

A leaf with an interesting shape

Something that smells like nature (pine needles, herbs, sea air!)

A feather

Something tiny and wonderful you choose yourself

**Bonus challenge:**

Which treasure do you think Gilby would like best, and why?

## Mini Eco-Missions

Gilby has three important missions for you. Choose one or try them all.

### Mission A: Litter Hero

Take a grown-up and collect litter safely in a park or beach.

Draw the place before and after your clean-up.

### Mission B: Water Saver

Time yourself brushing your teeth for two minutes.

How many seconds can you go without leaving the tap running?

### Mission C: Bug Buddy

Make a tiny home for bugs out of sticks, leaves, and bark.

Where did you put it? Why is that a good spot?

## Nature Detective Quiz

Circle your answers!

**Bees like flowers because they collect...**

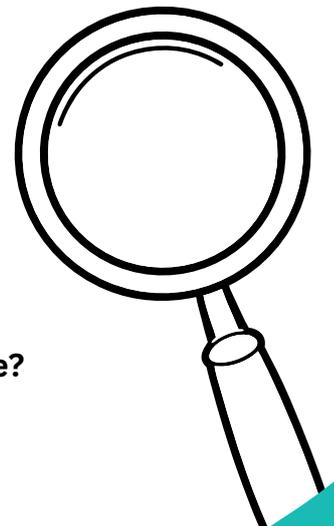

- a) Honey
- b) Nectar
- c) Old socks

**Which of these animals might live in the Wildgrounds?**

- a) Hedgehog
- b) Shark
- c) Gorilla

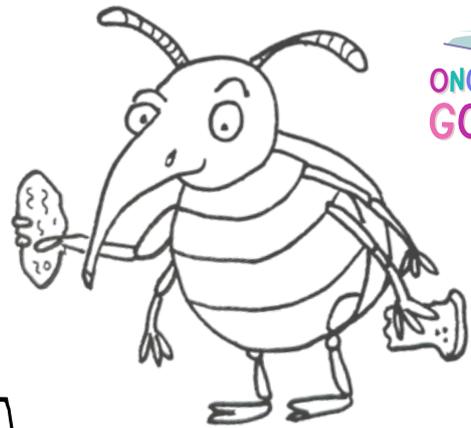

**What should you do if you see a plant or bug you don't recognise?**

- a) Pick it up
- b) Leave it where it is and look closely
- c) Give it a haircut

# Tell Gilby Your Promise

Gilby loves hearing how children will help nature.

Complete this sentence:

"I promise to look after Gosport by..."

## Make Your Own Gilby Puppet!

All you need is:

- A paper circle for the body
- Some colouring pens,
- Two little antennae made from paper or pipe cleaners
- And (if allowed) a blob of glue or sticky tape.

Draw Gilby's curious little face and colour his shell.

What pattern does your Gilby have?
